

Dear Fifth Grade Parents,

This letter is to inform you *every child born after January 1, 1994 is required to receive a booster immunization for diphtheria, tetanus and acellular pertussis (whooping cough) before entering 6th grade.* This vaccine is usually called T-dap.

Your son should receive a Tdap booster when he turns 11 years old.

If your child will be 11 years old before the first day of school he must have the vaccine before entering 6th grade.

If your child will not be 11 years old before this date, he will be allowed to enter 6th grade, but must receive the vaccine with within 30 days of his 11th birthday.

When your child receives this vaccine, please send in the documentation.

Thank you in advance for your cooperation in this matter.
If you have any question or concerns please, please call us at extension 109 or email to nurse@darcheinoam.org.

Sincerely,

Leah Lichstein, RN
Feige Koegel, RN
